

LegitURL Report

Generated on 2025-06-09T13:23:55Z
Version: 1.1.3 / Build: 20250604

This report uses heuristics.
A low score does not imply the URL is malicious, only that it lacks strong security hygiene.
This analysis is based on clean HTTP requests, made **without query parameters or fragments**, to simulate a first-time access.
